Rutgers University

2021-2022

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handelbars.js, and ReactJS

Bachelor of Arts, Journalism

Rutgers University

2010-2018

PROFILE

Full Stack Web Developer with a background in web design, I'm adept at coding and learning new languages and technologies. I am passionate about solving problems and have the ability to balance many projects at once, while utilizing my skills in planning and pseudo coding. My aim is to form ideal strategies toward project completion, and continuously produce outstanding results.

WORK EXPERIENCE

Website Designer

Practical Website Design 2019 – 2021

Created dōTERRA certified websites for new clients, and updated existing sites using Strikingly. Kept in contact with clients regarding their business, discussed and implemented updates that would improve customer experience. Designed and deployed three monthly blogs via PWD's blog writing service using Updated client's websites with the latest dōTERRA promotions.

Production Assistant

America's Got Talent 2012-2015

Maintained a conducive atmosphere for both contestants and judges. Guided contestants through weekly lessons and interviews in various locations across New York City. Assisted in the process of production on live show nights, by promptly bringing contestants through hair, makeup, wardrobe and finally to stage. Served as liaison for the judges, host and production manager.

PROJECTS

MusicBox

Contributor | JavaScript, Bulma, Figma February 2022

Repo: <https://github.com/chloeyarb/Music-Box>

Deployed: <https://chloeyarb.github.io/Music-Box/>

- This app allows the user to search for song lyrics and provides a meme of the artist in the search results. The song title and artist name will then be saved on the "Your Favorites" page.
- I styled the homepage for this app, created the "About" modal, and connected the API for the lyrics.

PROJECTS

Run Buddy

Creator | HTML, CSS

January, 2022

Repo: <https://github.com/NicoleBarranca/run-buddy>

Deployed: <https://nicolebarranca.github.io/run-buddy/>

- This app displays a template for a fitness website.
- I created this mobile responsive app with a sticky header, a hero section that includes a form to request a consultation, and the footer includes an embedded google map next to the contact form.

Everything Cal

Creator | JavaScript, CSS, Moment.js

February, 2022

Repo : <https://github.com/NicoleBarranca/Everything-Cal>

Deployed : <https://nicolebarranca.github.io/Everything-Cal/>

- This app is a daily planner that allows the user to input and save tasks or important dates for each hour of the workday.
- This app will display the current date and the top of the page, and past, present and future hours are color coded for a visual representation of the task's urgency.
